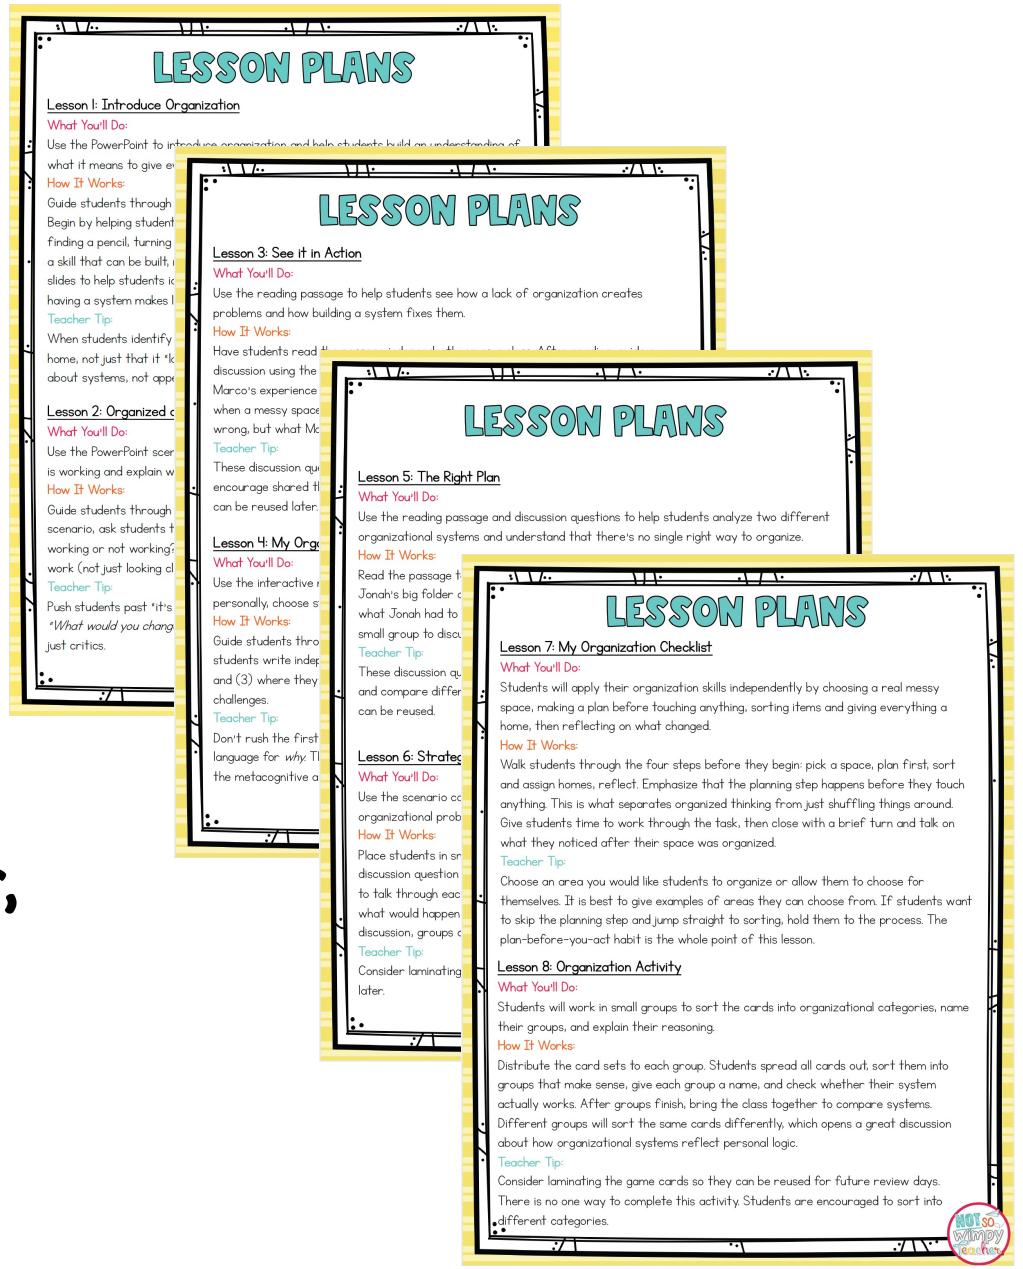
10 Days of Activities

Each unit starts with a short mini lesson to introduce the skill, model examples, and guide student discussion.

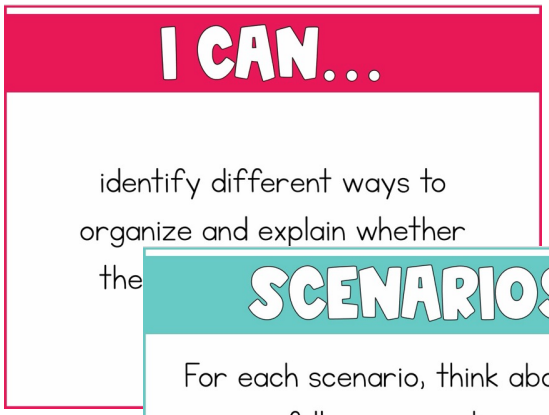
Students then apply their learning by making real-life connections through reading passages, notebook activities, or class discussions.

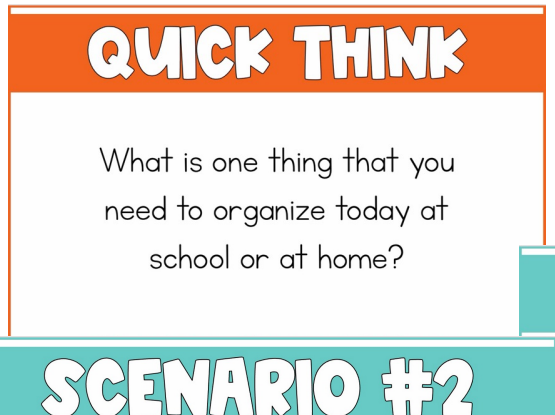
Extras include a parent letter, classroom poster, supply organization activity, student shout-outs & reward tags.

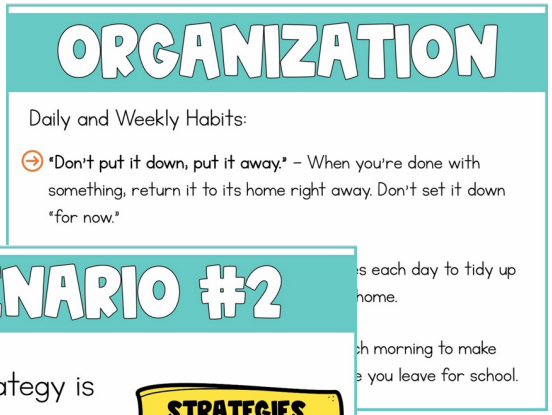
Included self-assessment.

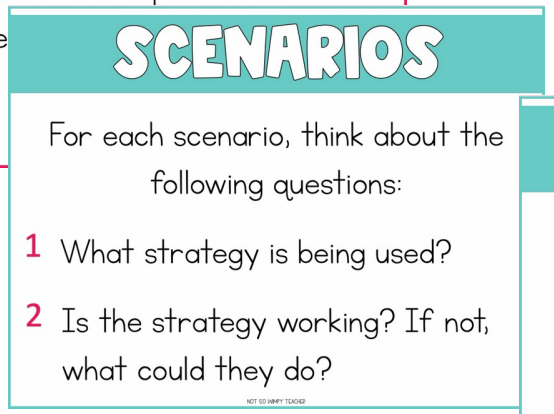


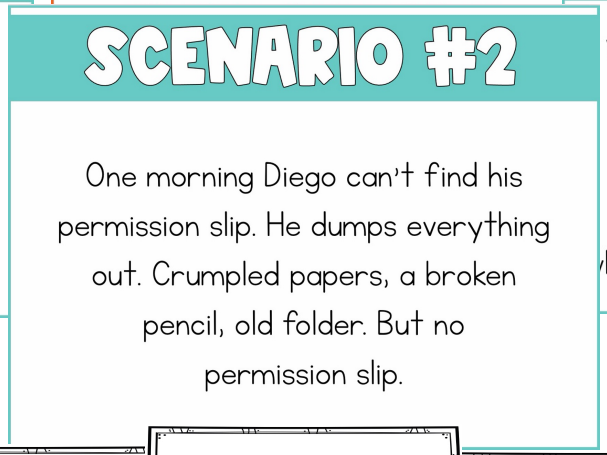
Real-Life Scenarios

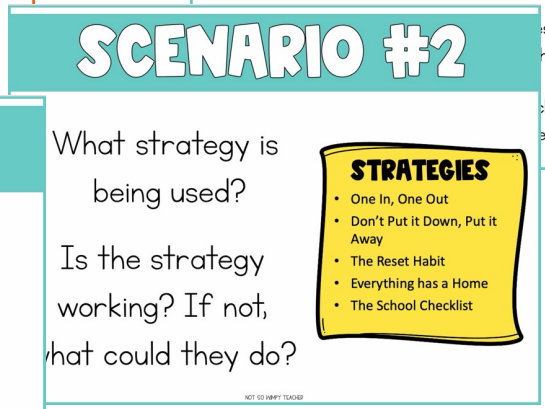


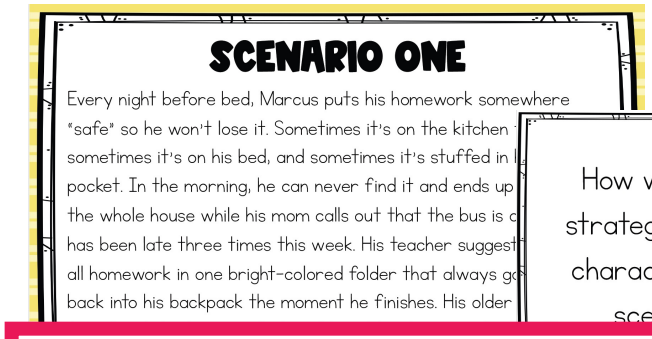


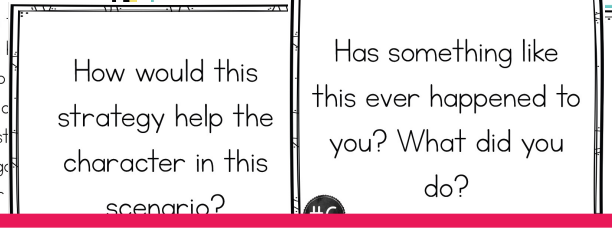


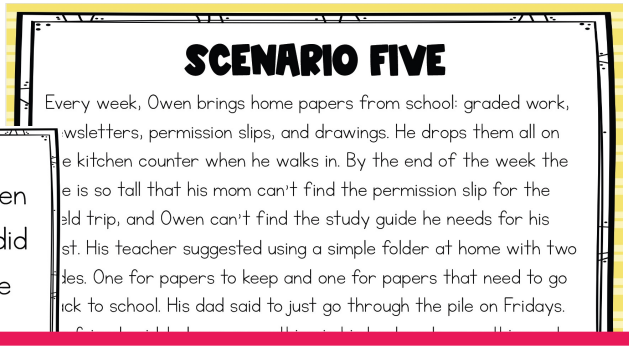










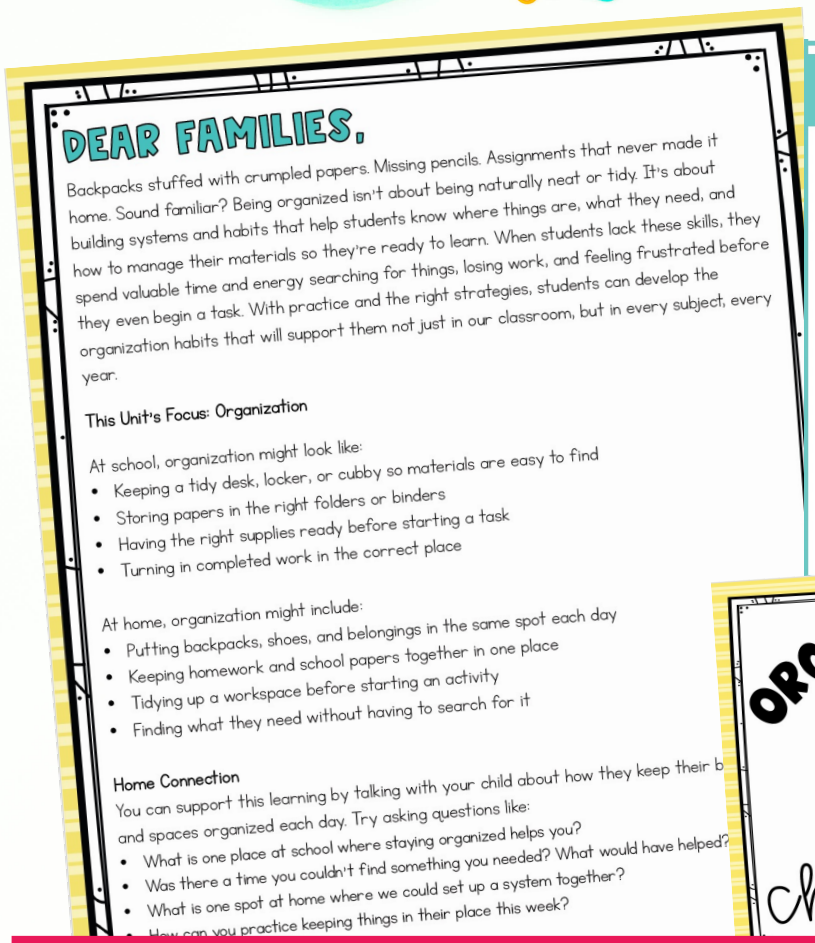


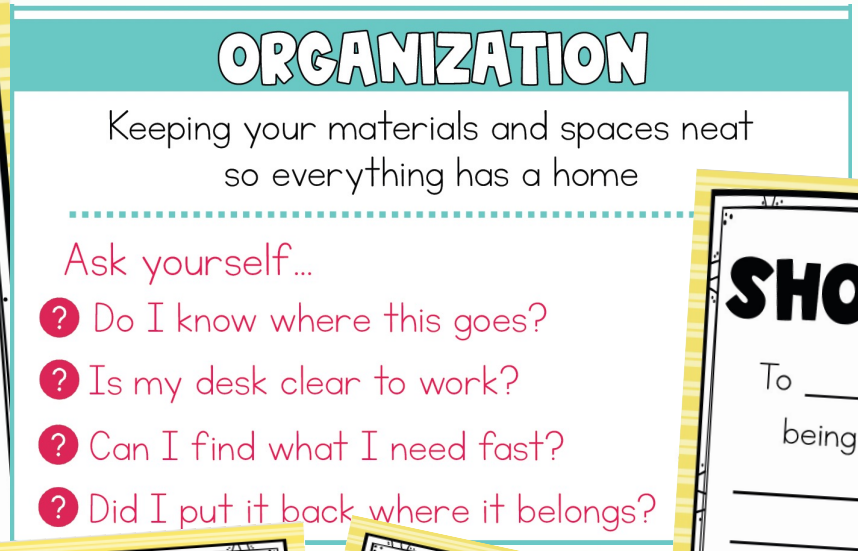
Lessons are perfect for morning meetings, during transitions, or revisiting when real situations arise. Flexible sample schedule included to easily fit your classroom needs.

Reading Passages & Reflection

Two original reading passages with reflection questions teach students how organization affects their work habits.

Classroom Extras





Reinforce executive functioning skills with student shout-outs, reward tags, a classroom poster & letter home explaining each unit.
