

# Student DIRECTIONS

Read the directions at the top of each center to learn what to do.  
Most centers will have you do one of two things:

## TYPING CENTERS

Boxes like this: # are where you should type just a number as your answer.

Boxes like this: Type are where you should type numbers, words, and/or equations for your answer.

## DRAG AND DROP CENTERS

Some centers have objects like these:

You will need to click and drag them to where they belong.

## SPECIAL CENTERS → → →

Sometimes, you will need to do more than type or drag and drop to complete a center. These special centers will have tips from the characters to help you. Scroll to the side of this slide to find one!

# Notes to the TEACHER

There are several ways you can use these math centers in and out of the classroom!

They can be used as an independent math practice for your students. Students can complete them on in class devices while you're working with guided math groups. These digital math centers can also be used as an option for bell work if your students have 1:1 ratio with devices. They would work well as a warm-up before starting math instruction.

This resource is also a great solution for distance learning. Students can work on the math centers through out the week. All centers include student friendly directions for students to be able to navigate through the centers independently.

In most of the centers students are asked to fill in blanks or drag and drop items to solve problems. If there are special directions to follow, there are tips given by the clipart characters that explain and give examples of what to do.

I allow my students to complete the centers in any order that they wish. They love having some choice during centers.

The following pages have some frequently asked questions about using these digital centers files in Google Classroom.

## 4

## FACT FAMILIES

Write the 4 math facts that make up the fact family for each set of numbers.

A. 3, 5, 15

#	×	#	=	#
#	×	#	=	#
#	÷	#	=	#
#	÷	#	=	#

B. 3, 7, 21

#	×	#	=	#
#	×	#	=	#
#	÷	#	=	#
#	÷	#	=	#

C. 4, 9, 36

#	×	#	=	#
#	×	#	=	#
#	÷	#	=	#
#	÷	#	=	#

D. 6, 8, 48

#	×	#	=	#
#	×	#	=	#
#	÷	#	=	#
#	÷	#	=	#

E. 3, 8, 24

#	×	#	=	#
#	×	#	=	#
#	÷	#	=	#
#	÷	#	=	#

F. 6, 7, 42

#	×	#	=	#
#	×	#	=	#
#	÷	#	=	#
#	÷	#	=	#

G. 5, 9, 45

#	×	#	=	#
#	×	#	=	#
#	÷	#	=	#
#	÷	#	=	#

H. 4, 8, 32

#	×	#	=	#
#	×	#	=	#
#	÷	#	=	#
#	÷	#	=	#

## 6

## ARRAYS

Match the equations with the correct array. Solve the equations.

A. XXXXX  
XXXXX  
XXXXX  
XXXXX

Type

B. XXXXXX  
XXXXXX  
XXXXXX

Type

C. XX  
XX  
XX  
XX  
XX  
XX

Type

D. XXX  
XXX  
XXX  
XXX

Type

E. XXXX  
XXXX  
XXXX  
XXXX

Type

F. XXXXXXXX  
XXXXXXXX  
XXXXXXXX

Type

$$18 \div 3 =$$

$$20 \div 4 =$$

$$21 \div 3 =$$

$$16 \div 4 =$$

$$12 \div 3 =$$

$$12 \div 2 =$$

# 7

# STRATEGIES

Complete each of the tasks in order.

1. Solve  $21 \div 3$  using an array.

Type

TOOLS

2. Solve  $21 \div 3$  using an equal group drawing.

Type

TOOLS

3. Solve  $21 \div 3$  using repeated subtraction.

Type

4. Solve  $21 \div 3$  using a related multiplication fact.

Type

5. Which of these division strategies do you like best? Why?

Type
