10

Student recording book designed to save paper and allows student choice to complete the ten centers in any order they wish.

1 MATH JOURNAL

A large rectangular box with a white background and a black border. The top portion is blank, and the bottom portion contains several horizontal lines for writing.

MATH JOURNAL

Read the question carefully. Use words, numbers, or pictures to show your thinking. Be sure to write your answer in

Peter has 3 quarters, 1 dime, and 3 pennies. How much money does he have altogether? Draw a picture and explain the strategy you used to solve.

Center 1

A constructive response math journal prompt is included. The question asks students to use a picture and explain the reasoning for their answer.

5 COINS

A.

B.

C.

D.

COINS

Match the coin cards with their value.
Record the value of each card in your book.

37 cents

55 cents

30 cents
